

--

The diagram shows the R13 component with its internal structure and pin connections. The component is represented by a large oval shape with two circular mounting holes. Inside, there are two main sections: a 4x2 grid of pins on the left and a 3x4 grid of pins on the right. The pins are labeled with numbers 1 through 11. The internal structure is divided into three rows: Row A (top), Row B (middle), and Row C (bottom). The pins are connected to the internal structure as follows:

Pin	Row A	Row B	Row C
1			
2			
3			
4			
5			
6	LPGA BE		20U X
7			MG NO
8	20BK X	34A X	87A X
9	20BD X	34B X	
10	23F X	23J X	
11	20W X	23K X
